New York, NY – June 9, 2005 – Capstone Business Credit, LLC, a venture merchant banking firm providing alternative financing to firms involved in the domestic and international trade of finished consumer and industrial products, today announced the signing of a two-year project financing agreement with Jet Set Style, a newly-formed parent company of higher-end brand ANATOMIE, a designer of upscale women's active wear.

The deal, in effect until February 2007, will allow ANATOMIE to expand European sales distribution channels to include high-end department stores and specialty boutiques throughout the world. ### **ABOUT CAPSTONE BUSINESS CREDIT, LLC**

Capstone Business Credit, LLC, a privately-held, venture merchant banking firm, provides structured financing to developmental stage firms -- with typical sales of less than \$50 million -- that are involved in the domestic and international trade of finished consumer and industrial products.

Capstone uses a structured merchant finance model to provide the additional working capital required to take advantage of the incremental sales opportunities that smaller, under capitalized firms often lose, forfeiting growth opportunities.
